RISK ASSESSMENT FOR PHASED OPENING OF QUEEN ELIZABETH'S GRAMMAR, ALFORD

07/07/2020 The Government have given a date of September 2020 to reopen. Meeting scheduled for 13/07/2020, all staff to be informed of procedures and updates. Assessment will be updated once start date confirmed.

RISK: COVID-19 Virus

COVID-19 is primarily transmitted from symptomatic people to others who are in close contact through respiratory droplets, by direct contact with infected persons, or by contact with contaminated objects and surfaces.

During the reopening we recognise that any and all measures will be imperfect. We are aware that there will be periods of time during full reopening where various measures will be impractical. Our overarching philosophy is to **go as far as we can when we can** to reduce contact and proximity, thereby reducing risk rather than eliminating risk. We accept that at times there will be periods within school where one measure or another will have to be relaxed temporarily for practical purposes, in order to allow the curriculum to run effectively.

While the list of measures implemented is significant, it is intended that over time as the national situation becomes more certain, we reduce the number of measures sequentially through discussion as a senior team, with further adjustments kept live on this document which can be located on the school intranet.

CONTROL MEASURE	Measure	FURTHER ACTION TO CONTROL RISK	ACTIONED BY	DATE IMPLEMENTED	DATE MEASURE SUSPENDED	DATE FORMALLY REVIEWED
Minimise contact and maintain social distancing as far as possible and when it is possible.	A	Monitor	All pupils and staff	10/07/2020	Still in place	See review sheet 2
Pupils and staff are encouraged to adhere to the 2 metre distancing rule where possible, reducing to 1 metre when not and in close proximity, when distancing is not practicable. This is to be monitored by staff.	B	Monitor	All pupils and staff	03/06/2020	Still in place	See review sheet 2
Pupils must meet daily at the designated and marked assembly points upon entering school for their form.	C	Monitor	All pupils and staff	03/06/2020	Still in place	See review sheet 2
Each year group will form its own bubble, with the exception of years 12 and 13 who will form their own bubbles.	D	Monitor	Staff	03/06/2020	Still in place	See review sheet 2
For the purpose of teaching, year 7 and 8 will form their own bubbles within bubbles, in the guise of form groups.	E	Monitor	All pupils and staff	10/07/2020	Still in place	See review sheet 2
Almost all of the teaching for year 7 and 8 will take place within their form rooms. With teachers moving to them, thus significantly reducing the flow of students on corridors between lessons.	F	Monitor	All pupils and staff	10/07/2020	Still in place	See review sheet 2
Year 7 and 8 will be grouped via form for the majority of their timetable. This will necessitate a reordering of some aspects of the curriculum in order to facilitate this form of teaching, eg DT to start the year with the graphics units of work.	G	Monitor	All pupils and staff	10/07/2020	Still in place	See review sheet 2
Entrance to the school will be via key stage entrances. Year 7 & 8 using the kitchen delivery entrance.	H	Monitor	All staff and pupils	03/06/2020	Still in place	See review sheet 2

The Management of Health & Safety at Work Act 1992 (regulation (3)) requires every employer and self-employed person to identify the measures they need to take, to comply with the requirements and prohibitions imposed on them by or under the relevant statutory provisions. Employers must therefore make a suitable and sufficient assessment of:

- (a) the risks to the health & safety of their employees to which they are exposed whilst they are at work; and
- (b) the risks to the health & safety of persons not in their employment arising out of, or in connection with, the conduct by them of their undertaking:

Where there are five or more persons employed, the significant findings of any assessment must be recorded.

The management regulations (or MHSWR) were introduced to implement the European framework directive (89/4391/EEC) and also the Temporary Workers Directive (91/383/EEC), and came into force on 1 January 1993. They cover all work activities to which the Health & Safety at Work Act 1974 apply.

The regulations should be regarded as an extension to basic duties on employers, self-employed and employees.

The need for risk assessment is also implicit in other regulations made under the Health & Safety at Work Act (such as, for example, COSHH, and the PPE regulations).

Establishing the level of risk. A level of risk (description) posed by a particular hazard can be given a rating of High, Medium or Low risk. Most common situations are likely to be classed as having a High or Medium risk. The level of risk index is a combination of the severity of the hazard and the likelihood of the hazard occurring, and allows the Level of Risk description to be applied.

LEVEL OF RISK (Index) has two components:

1. Severity of Hazard (A-C)

2. Likelihood (1-3)

The Severity of the hazard is categorized below:		
SEVERITY	DESCRIPTION	Index
CATASTROPHIC or CRITICAL	can result in serious/major injuries or fatalities. Also includes serious damage or loss of personal property.	A
MARGINAL	can cause injury/illness requiring first aid, out-patient treatment, counselling, absence from work. This may well include 'serious or persistent verbal abuse'. Also includes some significant damage or loss of personal property.	B
NEGLIGIBLE	will not result in injury/illness but could lead to a feeling of being at risk or distressed. Some minor damage or loss of personal property.	C

The Likelihood of the hazard is categorized below:		
LIKILHOOD	DESCRIPTION	Index
EXTREMELY LIKELY	likely to occur immediately	1
LIKELY	likely to occur at sometime	2
UNLIKELY	unlikely to occur	3

Levels of risk (indices) are described as A1/A2/A3 or B1/B2/B3 or C1/C2/C3. The Level of Risk will indicate the likely Control Procedures and Review Frequency:			
Level of Risk (Description)	Level of Risk (Index)	Control Action	Review Frequency (at least)
High	A1	Take immediate action, e.g. withdraw equipment from use, change procedures or personnel, etc.	Termly (4 months)
	B1/A2	Plan to quickly reduce the level of risk. Use judgement to assess priorities.	
Medium	A3/B2/C1	Plan to reduce the level of risk even further if this is possible. Monitor standards and procedures regularly.	Annually
Low	B3/C2/C3	Monitor standards and procedures biennially to ensure that risk level does not increase.	2 years
